

# AMP range

FRANCE

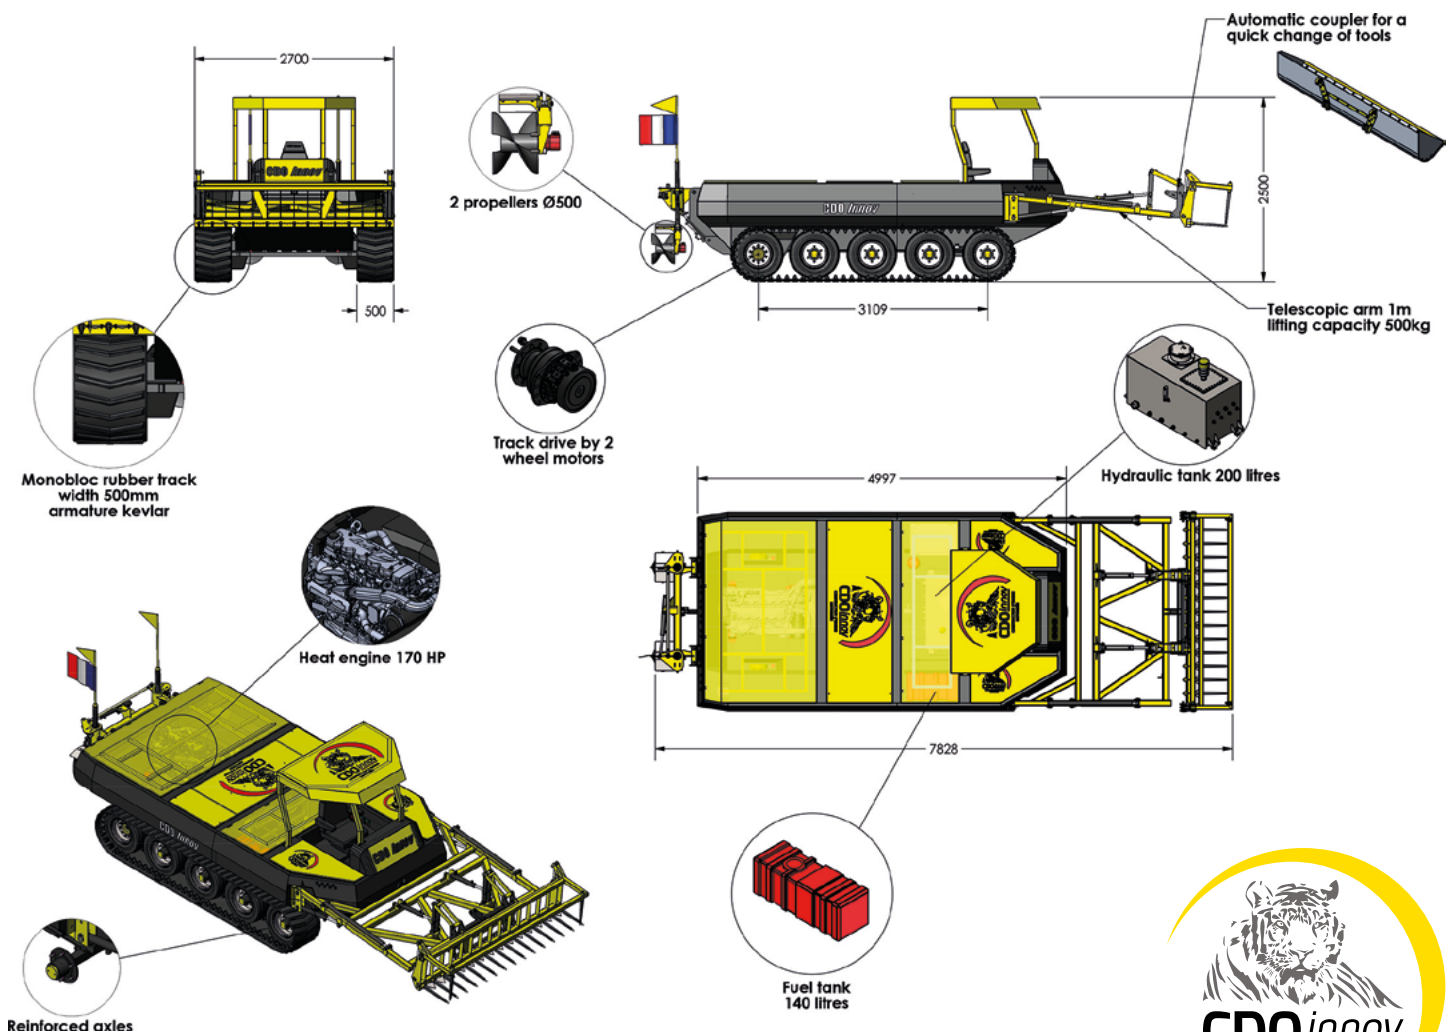

**AMP are tool equipped amphibious vehicles specialized** for the river, harbor and maritime domains. All of our AMP are made from quality raw material and components, in our Machecoul factory, south of Nantes (France). CDO Innov boats are CE certified and were also conceived to be certified according to the DDTM (inland waters) and /or CSN (maritime area) norms.

The AMP can also be used to collect seaweeds such as Sargassum through a suction nozzle connected to a pumping system that can collect at least 25 tons of seaweeds per hours. This system is designed to operate in different configurations and is moreover environmentally friendly.

### Areas of application:

Grubbing up - Waterweed cutting - Pumping - Tree pruning - Floating waste collecting in rivers, lakes, harbors, beaches, waterfront and shores.

Patented

# AMP range

## Advantages

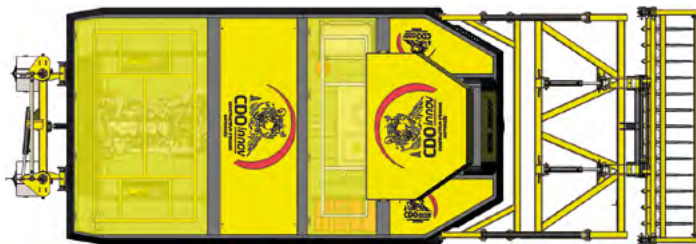

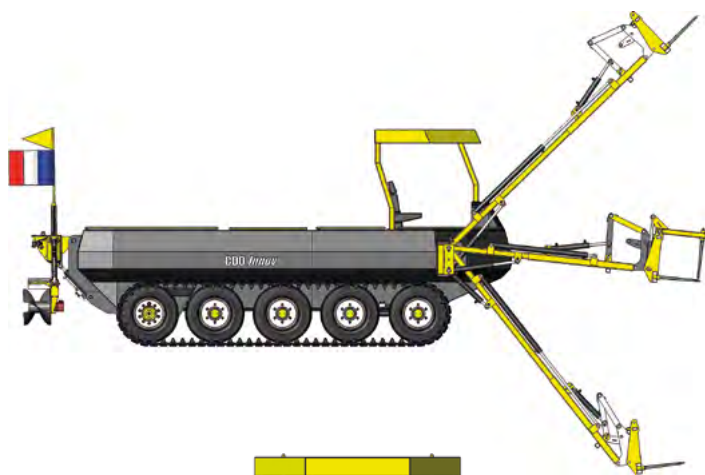

- Polyvalence: amphibious vehicle that can operate in any environment
- Technology: danfoss electronic calculator
- Tailor-made and evolutive programming
- The AMP can be used with Radio-control
- Efficiency: strong hydraulic power available for the tools [variable-delivery pumps]
- Strong loading capacity and capability
- Environment: low bearing and impact on the ground
- Homologation: inland waters and maritime regulation compliance

## Options

- **AMP 13:** waterweed cutter blade, harvest basket, lifting fork, hook, aluminum jar, slurry pumping, submersible chainsaw, lateral double dead nettle
- **AMP 17:** waterweed cutter blade, harvest basket, lifting fork, hook, aluminum jar, slurry pumping, submersible chainsaw, lateral double dead nettle, suction nozzle

The AMP 17 can also be used with our pumping system with Decantation/separation/washer in order to tackle down threat such as Sargassum or others seaweeds in certain areas of the world.

	AMP13	AMP17
		
Horsepower	130 Cv	180 Cv
Loading capacity	400 Kg	700 Kg
Evolution	Medium	High
L x w x H (in m)	7 x 2.2 x 1.7	7 x 3 x 1.7
Draft (in cm)	80	80
Weight (in metric tons)	3.5	4.5
Material	Aluminium	Aluminium / Inox
Can be operated by (persons)	1	1
Speed	7 km/h	9km/h
Transport units needed	Public works transport tray	Public Works transport tray
